Description:

Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) - Pipeline Review, H1 2019

Summary

Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) pipeline Target constitutes close to 6 molecules. Out of which approximately 4 molecules are developed by companies and remaining by the universities/institutes. The latest report Sodium And Chloride Dependent Glycine Transporter 1 - Pipeline Review, H1 2019, outlays comprehensive information on the Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) - Sodium- and chloride-dependent glycine transporter 1 is a protein encoded by the SLC6A9 gene. It terminates the action of glycine by its high affinity sodium-dependent reuptake into presynaptic terminals. It plays a role in regulation of glycine levels in NMDA receptor-mediated neurotransmission. The molecules developed by companies in Phase II, Preclinical and Discovery stages are 2, 1 and 1 respectively.

Similarly, the universities portfolio in Preclinical stages comprises 2 molecules, respectively. Report covers products from therapy areas Central Nervous System and Metabolic Disorders which include indications Schizophrenia, Cognitive Impairment Associated With Schizophrenia (CIAS), Alzheimer's Disease, Bipolar Disorder (Manic Depression), Cognitive Impairment, Parkinson's Disease and Pervasive Developmental Disorder (PDD).

Furthermore, this report also reviews key players involved in Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) targeted therapeutics development with respective active and dormant or discontinued projects. Driven by data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content / sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

Scope

- The report provides a snapshot of the global therapeutic landscape for Sodium And Chloride

Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9)

- The report reviews Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources
- The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages
- The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities
- The report reviews key players involved in Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) targeted therapeutics and enlists all their major and minor projects
- The report assesses Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type
- The report summarizes all the dormant and discontinued pipeline projects
- The report reviews latest news and deals related to Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) targeted therapeutics

Reasons to buy

- Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Identify and understand the targeted therapy areas and indications for Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9)
- Identify the use of drugs for target identification and drug repurposing
- Identify potential new clients or partners in the target demographic
- Develop strategic initiatives by understanding the focus areas of leading companies
- Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics
- Devise corrective measures for pipeline projects by understanding Sodium And Chloride Dependent Glycine Transporter 1 (Glyt1 or Solute Carrier Family 6 Member 9 or SLC6A9) development landscape
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

Single User License (PDF)

- This license allows for use of a publication by one person.
- This person may print out a single copy of the publication.
- This person can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
- This person cannot share the publication (or any information contained therein) with any other person or persons.
- Unless a Enterprise License is purchased, a Single User License must be purchased for every person that wishes to use the publication within the same organization.
- Customers who infringe these license terms are liable for a Global license fee.

Site License (PDF)*

- This license allows for use of a publication by all users within one corporate location, e.g. a regional office.
- These users may print out a single copy of the publication.
- These users can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
- These users cannot share the publication (or any information contained therein) with any other person or persons outside the corporate location for which the publication is purchased.
- Unless a Enterprise License is purchased, a Site User License must be purchased for every corporate location by an organization that wishes to use the publication within the same organization.
- Customers who infringe these license terms are liable for a Global license fee.

Global License (PDF)*

- This license allows for use of a publication by unlimited users within the purchasing organization e.g. all employees of a single company.
- Each of these people may use the publication on any computer, and may print out the report, but may not share the publication (or any information contained therein) with any other person or persons outside of the organization.
- These employees of purchasing organization can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
