Description:

Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) - Pipeline Review, H1 2019

Summary

Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) pipeline Target constitutes close to 13 molecules. Out of which approximately 12 molecules are developed by companies and remaining by the universities/institutes. The latest report Tumor Necrosis Factor Receptor Superfamily Member 1A - Pipeline Review, H1 2019, outlays comprehensive information on the Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) - Tumor necrosis factor receptor 1 (TNFR1) is a ubiquitous membrane receptor that binds tumor necrosis factor-alpha (TNFalpha). This receptor activates NF-kappaB, mediate apoptosis and function as a regulator of inflammation. Mutations in this receptor were found to be associated with tumor necrosis factor associated periodic syndrome (TRAPS). The molecules developed by companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 3, 2, 2, 2 and 3 respectively.

Similarly, the universities portfolio in Phase I stages comprises 1 molecules, respectively. Report covers products from therapy areas Oncology, Dermatology, Central Nervous System, Gastrointestinal, Immunology, Infectious Disease, Ophthalmology, Respiratory and Undisclosed which include indications Atopic Dermatitis (Atopic Eczema), Non-Alcoholic Steatohepatitis (NASH), Actinic (Solar) Keratosis, Acute Lung Injury, Alzheimer's Disease, Breast Cancer, Gastrointestinal Tract Cancer, Genital Warts (Condylomata Acuminata), High-Grade Glioma, Inflammation, Intermediate Uveitis, Kidney Cancer (Renal Cell Cancer), Liver Fibrosis, Melanoma, Metastatic Melanoma, Multiple Sclerosis, Non-Small Cell Lung Cancer, Pancreatic Endocrine Tumor, Posterior Uveitis, Psoriasis, Retinitis Pigmentosa (Retinitis), Rheumatoid Arthritis, Soft Tissue Sarcoma, Solid Tumor, Thyroid Cancer, Unspecified and Warts.

Furthermore, this report also reviews key players involved in Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) targeted therapeutics development with respective active and

dormant or discontinued projects. Driven by data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content / sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

Scope

- The report provides a snapshot of the global therapeutic landscape for Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A)
- The report reviews Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources
- The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages
- The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities
- The report reviews key players involved in Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) targeted therapeutics and enlists all their major and minor projects
- The report assesses Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type
- The report summarizes all the dormant and discontinued pipeline projects
- The report reviews latest news and deals related to Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) targeted therapeutics

Reasons to buy

- Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Identify and understand the targeted therapy areas and indications for Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A)
- Identify the use of drugs for target identification and drug repurposing

- Identify potential new clients or partners in the target demographic
- Develop strategic initiatives by understanding the focus areas of leading companies
- Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics
- Devise corrective measures for pipeline projects by understanding Tumor Necrosis Factor Receptor Superfamily Member 1A (Tumor Necrosis Factor Receptor 1 or Tumor Necrosis Factor Receptor Type I or p55 or p60 or CD120a or TNFRSF1A) development landscape
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

Milestones

Featured News & Press Releases

Mar 19, 2019: INmune Bio co-founder and CEO presented at Cambridge Healthtech Institute's 4th Annual Immuno-Oncology Summit Europe 2019

Feb 11, 2019: INmune Bio awarded a \$1 million grant for the development of XPro1595 for the treatment of Alzheimers Disease

Dec 11, 2018: Study results presented at San Antonio Breast Cancer Symposium 2018

Nov 15, 2018: Data from University of Pittsburgh on INB03 for Treatment of Melanoma Presented at the 33rd Annual Society for Immunotherapy of Cancer (SITC) Meeting

Aug 09, 2018: Eyevensys appoints new Board member, Gerald Cagle

Jul 18, 2018: Philogen receives orphan drug designation for the treatment of melanoma

May 23, 2018: INmune Bio Initiates Phase I Clinical Trial of INB03

Mar 12, 2018: Nanotechnology Delivers a Two-Punch Combination With Big Potential for Patients With Rare Cancers

Oct 12, 2017: Philogen Announces Authorization from FDA of a Pivotal Registration Trial in USA for the Treatment of Resectable Melanoma

May 09, 2017: Eyevensys Announces the First-in-Human Treatment with its GroundBreaking EyeCET ElectroTransfection Technology for Eye Diseases

Apr 20, 2017: Eyeevensys Receives Approval from the UK Medicines and Healthcare products Regulatory Agency to advance its EyeCET platform into clinical development

Apr 11, 2017: Eyeevensys Receives Approval from the French Product Security Regulatory Agency ANSM to advance its EyeCET platform into clinical development

Oct 28, 2016: Philogen Receives Orphan Drug Designation for the Treatment of Soft Tissue Sarcoma

May 31, 2016: Eyeevensys appoints Dr. Patricia Zilliox, an Experienced Ophthalmology Clinical Development Leader, to Board of Directors

Feb 18, 2016: Eyeevensys Receives Orphan Drug Designation in the European Union for EYS606 for the Non-Infectious Uveitis
