**Description:**
Taiwan Peripheral Vascular Devices Market Outlook to 2022

**Summary**
GlobalData’s new report, Taiwan Peripheral Vascular Devices Market Outlook to 2022, provides key market data on the Taiwan Peripheral Vascular Devices market. The report provides value, in millions of US dollars, volume (in units) and average price data (in US dollars), within market segments - Arteriotomy Closure Devices, Inferior Vena Cava Filters (IVCF), Peripheral Embolic Protection Devices, Peripheral Guidewires, Peripheral Vascular Stents, Deep Seated Artery Stents, Renal Denervation Catheters, PTA Balloons, Aortic Stent Grafts, Vascular Grafts and Tip Location Devices.

Note: This is an on-demand report and will be delivered within 2-3 business days of the purchase (excluding weekends)

The report also provides company shares and distribution shares data for the market category, and global corporate-level profiles of the key market participants. Based on the availability of data for the particular category and country, information related to pipeline products, news and deals is available in the report.

The data in the report is derived from dynamic market forecast models. GlobalData uses epidemiology and capital equipment-based models to estimate and forecast the market size. The objective is to provide information that represents the most up-to-date data of the industry possible.

The epidemiology-based forecasting model makes use of epidemiology data gathered from research publications and primary interviews with physicians to establish the target patient population and treatment flow patterns for individual diseases and therapies. Using prevalence and incidence data and diagnosed and treated population, the epidemiology-based forecasting model arrives at the final numbers.

Capital equipment-based forecasting models are done based on the installed base, replacements and new sales of a specific device/equipment in healthcare facilities such as hospitals, clinics and diagnostic centers. Data for average number of units per facility is used to arrive at the installed base of the capital equipment. Sales for a particular year are arrived at by calculating the replacement units and new units (additional and first-time purchases).

Extensive interviews are conducted with key opinion leaders (KOLs), physicians and industry experts to validate the market size, company share and distribution share data and analysis.

**Scope**
- Annualized market revenues (USD million), volume (units) and average selling price ($) data for each
of the market categories. Data is provided from 2008 to 2015 and forecast to 2022.
- 2015 company shares and distribution shares data for Peripheral Vascular Devices market.
- Global corporate-level profiles of key companies operating within the Taiwan Peripheral Vascular Devices market.
- Key players covered include Boston Scientific Corporation, Abbott Laboratories, Medtronic plc, Cordis Corporation and Others.

Reasons to buy

- Develop business strategies by identifying the key market segments poised for strong growth in the future.
- Develop market-entry and market expansion strategies.
- Design competition strategies by identifying who-stands-where in the market.
- Develop investment strategies by identifying the key market segments expected to register strong growth in the near future.
- What are the key distribution channels and what's the most preferred mode of product distribution - Identify, understand and capitalize.

2.1 What Is This Report About? 7
2.2 Peripheral Vascular Devices Market Segmentation 7
2.3 Definitions of Markets Covered in the Report 9
3 Peripheral Vascular Devices Market, Taiwan 12
3.1 Peripheral Vascular Devices Market, Taiwan, Revenue ($m), 2007-2014 12
3.2 Peripheral Vascular Devices Market, Taiwan, Revenue ($m), 2014-2021 15
3.2.1 Aortic Stent Grafts Market, Taiwan, Revenue ($m), by Segment, 2007-2014 18
3.2.2 Arteriotomy Closure Devices Market, Taiwan, Revenue ($m), by Segment, 2007-2014 20
3.2.3 Deep Seated Artery Stents Market, Taiwan, Revenue ($m), by Segment, 2007-2014 22
3.2.4 Inferior Vena Cava Filters (IVCF) Market, Taiwan, Revenue ($m), by Segment, 2007-2014 24
3.2.5 Peripheral Embolic Protection Devices Market, Taiwan, Revenue ($m), by Segment, 2007-2014 26
3.2.6 Peripheral Guidewires Market, Taiwan, Revenue ($m), by Segment, 2007-2014 28
3.2.7 Peripheral Vascular Stents Market, Taiwan, Revenue ($m), by Segment, 2007-2014 30
3.2.8 Renal Denervation Catheters Market, Taiwan, Revenue ($m), by Segment, 2007-2014 32
3.2.9 Vascular Grafts Market, Taiwan, Revenue ($m), by Segment, 2007-2014 34
3.2.10 Aortic Stent Grafts Market, Taiwan, Revenue ($m), by Segment, 2014-2021 36
5.1.4 Company Share Analysis 111
5.1.5 Distribution Share Analysis 111
5.1.6 Benchmarking 111
5.2 GlobalData Consulting 112

License Types:

Single User License (PDF)

- This license allows for use of a publication by one person.
- This person may print out a single copy of the publication.
- This person can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
- This person cannot share the publication (or any information contained therein) with any other person or persons.
- Unless a Enterprise License is purchased, a Single User License must be purchased for every person that wishes to use the publication within the same organization.
- Customers who infringe these license terms are liable for a Global license fee.

Site License (PDF)*

- This license allows for use of a publication by all users within one corporate location, e.g. a regional office.
- These users may print out a single copy of the publication.
- These users can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
- These users cannot share the publication (or any information contained therein) with any other person or persons outside the corporate location for which the publication is purchased.
- Unless a Enterprise License is purchased, a Site User License must be purchased for every corporate location by an organization that wishes to use the publication within the same organization.
- Customers who infringe these license terms are liable for a Global license fee.
Global License (PDF)*

- This license allows for use of a publication by unlimited users within the purchasing organization e.g. all employees of a single company.
- Each of these people may use the publication on any computer, and may print out the report, but may not share the publication (or any information contained therein) with any other person or persons outside of the organization.
- These employees of purchasing organization can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
